- ***Weekly Summary (This should be about a paragraph in length.)***

This week the main focus was doing the design documentation. On Thursday, we met right after class for about an hour to start the design documentation. That night at 7:15 we had a video chat meeting with the previous team's lead again. The purpose of this meeting was to discuss our role with him and to answer any questions we had about starting the project. After that meeting, our team stayed on the call and we finished the design documentation.

- ***Past week accomplishments (This should be about a paragraph or two.)***

All members completed the design documentation, that was the biggest thing we accomplished this week. We met twice that week to complete the document for about an hour each time. Once in person and the other via google hangouts. In addition, we also accomplished a meeting with our business lead, which lasted about an hour.
